Rationale for Recommendation.

Aequs is showing a constructive recovery setup as the stock is trading around ₹240 and holding above the ₹230 support zone, indicating improving momentum after a recent correction. The stock is attempting to move higher from its consolidation range, and a sustained move above ₹242–244 could trigger fresh buying interest towards ₹260–264. The overall outlook remains positive, with ₹230 acting as the key support level for the bullish view.
