Technical Picks

Hexaware Technologies Limited	
Reco Price	**₹566.5**
Call Buy	
Target Price	**₹600/624**
Stop Loss	**₹545**
Time Frame	

Rationale for Recommendation.

Hexaware Technologies is consolidating in the ₹550–560 range after a sharp recovery, indicating accumulation near higher levels. The stock is holding above its recent support, keeping the short-term trend constructive despite minor profit booking. A sustained breakout above ₹566 could drive the stock towards ₹600 to 624 while ₹545 should be maintained as the key stop-loss on a daily closing basis.
