## Technical Picks

### Infosys Limited 30 DEC 1620PE

<b>Reco Price</b>	₹16.90
<b>CE Buy</b>	
<b>Target Price</b>	₹14
<b>Stop Loss</b>	₹22
<b>Time Frame</b>	INTRADAY

### Rationale for Recommendation

**Infosys PE was a good buy on 18 Dec because the Infosys share price showed weakness, which increased the value of put options. At the same time, higher put buying pushed implied volatility up, raising the option premium. Since expiry was still some days away, time decay was limited, allowing the put to gain value.**
