Target Price	₹3094/3160
Stop Loss	₹2851

Rationale for Recommendation.

The stock has given a strong breakout above the ₹2,850 resistance zone with rising volumes, indicating fresh buying momentum. It is forming higher lows on the daily chart, signaling trend reversal from recent correction and also likely to fill the previous gap. Sustaining above ₹2930-2,950 can lead to upside towards ₹3,100–3,160 levels. View remains positive as long as it holds above ₹2,850 support.
